

LEGAL & GOVERNANCE TRAINING

We deliver Health & Safety training covering the risks across the lifecycle renewable project delivery. Courses build on the IOSH Competence Framework (2.0) by addressing the Core, Technical & Behavioural health and safety issues relevant to your sector or role. Our training covers the key regulatory, risk and technical safety topics to help with both compliance and best practice risk reduction programmes.

If you cannot see what you are looking for – we can always design & develop a training solution to meet your needs.

See also our Top Courses that include IOSH and SafetyOn approved programmes.
